DIVORCE SUIT STARTED HERE

Woman Charges Husband Living Under Assumed Name: Married in 1925

A woman has started a divorce suit here, charging that her husband is living under an assumed name. The couple was married in 1925.

INFANTILE PARALYSIS CHECKED HERE, BELIEF

No Additional Cases Reported To Health Department Victims Improving

The health department believes that the cases of infantile paralysis are improving. No additional cases have been reported.

REPORTED BETTER

Mrs. Helen L. Haring, formerly Miss Ruth Pitt, of this city, who has been seriously ill in the Grady Hospital for the last two weeks, has been reported getting along as well as can be expected.

GOES TO HOSPITAL

A student who has been confined to his home for the last two months left today for Hot Springs, Ark., where he will undergo treatment.

SORE ITCHING RASH FOLLOWED BERRY-PICKING

Spread rapidly, but was checked at last and quickly healed. Carrollton, Pa., Aug. 19.—"One day last year after picking berries my hand began to itch very badly. I scratched it but did not know what to do. Finally the place became red and sore and began to spread all over my hand. Then I became alarmed and seeing your advertisement I sent for a sample each of your Resol Soap and Ointment. After using these samples the red of my hand was gone. I purchased two and size boxes of each of the soap and two jars of Ointment and continued their use until my hand was finally healed. I can never thank you enough for what your Resol has done for me, and I hope that all who have skin trouble will try these products." (Signed) Agnes Frederick, Box 17.

**GENERAL ELECTRIC
Refrigerator**

What should a good refrigerator do?

A good refrigerator should keep food perfectly, run quietly and economically... and never need attention. All these are true of the new General Electric Refrigerator. All these—and more.

is extremely simple. It has all its moving parts enclosed in a single hermetically sealed casing. It has no belts, pipes, fans or drains to get out of order. Come in and see how unusually roomy and substantial it is.

The new General Electric is the worthy product of fifteen years of research in the leading electrical research laboratories.

Gum-Dipped Tires

Keep Cool on Summer's Scorching Highways!

1934 Tumbledown fabric tires used so literally burn up and blow out on hot days—the card they provided that absorption heat. Firestone created the last word in efficiency when it produced the Gum-Dipped Tire.

Every fiber of every cord in Firestone Tires is impregnated and saturated with rubber—that is why they do not melt upon each other and produce flaming heat as in ordinary tires.

Firestone MAKES THE ONLY GUM-DIPPED TIRES

C. F. CHURCH MARION VULCANIZING "Don't even—go to Church for tire service." 183 N. Main St. Phone 2946.

LIFE-SAVING WORK TO END

Capt. Carrol Bryant, Washington, To Close Instructions Here Aug. 31

The Red Cross swimming and lifesaving school which has been in progress at Crystal Lake under the direction of Jack Houghton, will be brought to a close with special demonstrations and lessons to be conducted by Capt. Carrol Bryant, Washington, who ranks as one of the country's leaders in this class of work.

Captain Bryant will be here for the last four days of the school, Aug. 20 to 24, inclusive. Houghton will continue as directing head of the work and he associated with Bryant in putting out the final fire drill program.

Plans are being made for handling unusually large classes during that time. The special demonstration are also expected to attract an unusually large number of spectators.

Results shown. Although attendance at the classes has not reached the proportions that the local Red Cross chapter had hoped for, the school, which started on July 1, has accomplished substantial results which will be of permanent benefit to

the community. The number of children who have been taught to swim and the number of adults who have been taught to swim are both large. The number of children who have been taught to swim is 12, and the number of adults who have been taught to swim is 11. The number of children who have been taught to swim is 12, and the number of adults who have been taught to swim is 11.

During Bryant's stay of 15 and 16 days, the school will be closed. The school will be closed for 15 and 16 days. The school will be closed for 15 and 16 days. The school will be closed for 15 and 16 days.

After the school, he was sent to St. Louis as athletic instructor with the American forces and later at Vladivostok he organized the Russian Boy Scouts, establishing a camp on the Japanese coast.

After the school, he was sent to St. Louis as athletic instructor with the American forces and later at Vladivostok he organized the Russian Boy Scouts, establishing a camp on the Japanese coast.

HOBERMAN IS COSTS LEADER

Democratic Candidate Files Largest Account for Campaign Expenses

The largest campaign account has been filed today for the Democratic primary in the city primary held last night. It was reported yesterday by William H. Hoberman, Democratic candidate for mayor, who reported \$10,000 for his campaign.

This was the largest of all campaign accounts filed today. It was reported for the account of \$12,000. It was reported for the account of \$10,000.

With the 10 day limit passed, it is now for filing campaign statements with the campaign board of election officers. A close today, nine of the candidates entered in the primary submitted their reports today. Only a few more are to be heard from and it is expected that the reports will be filed today.

Another item.

One other candidate in addition to Hoberman reported a campaign account today. It was reported for the account of \$10,000.

They Said "IMPOSSIBLE"—Yet the Haags Did It!

When the announcement was made that the famous Haag Vortex washer was to be further improved, nearly every one said, "There is no possible way of making it more perfect than it now is."

But—with the aid of the recommendations of 10,000 women, the Haag Brothers actually have done it!

All the exclusive Haag Vortex features have been retained—including the patented agitator base which prevents damaging of fabrics.

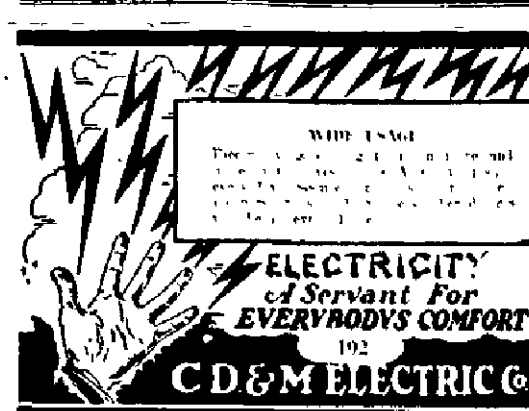

Among the new features is the double-tub construction—a stainless nickel lined copper tub encased in a galvanized jacket—rust proof and dent proof—with air space in between. This keeps the water hotter and aids washing.

The finish, too, has been improved. There is new beauty, new grace, and new efficiency.

Any Haag dealer will gladly do your next washing without obligation in your home with a Haag Vortex. Phone to day for this convincing proof.

400⁺ EXTRA DRY⁺

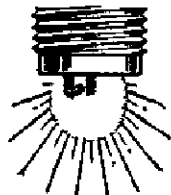

Check Carbon in Advance
With SHELL Gasoline and SHELL Motor Oil

400 "EXTRA DRY" SHELL Gasoline

SHELL Gasoline
Vaporizes completely
+ burns dry + leaves
no residue + + every
atom turns to power.

Does not vaporize completely & burns wet & gives less power & leaves greasy residue to dilute crankcase oil.

What "Extra Dry" Means

The outstanding superiority of 400 "Extra Dry" Gasoline is due to a revolutionary change in the process of refining . . . reducing the "cod point" to 400° . . . taking only the most volatile parts . . . producing LESS but much FINER gasoline from the crude. As a result, Shell Gasoline is EXTRA DRY . . . unusually free from heavy, greasy, carbon-bearing elements. It vaporizes completely, ignites instantly, burns cleanly, leaving no unburned residue to dilute the oil in the crankcase. It is a quality product . . . alive with power . . . more expensive to produce but costs you no more than the ordinary kind.

For motors of the high-compression type, there is nothing to equal SUPER-SHELL... the superlative gasoline that sells at 3c a gallon more.

Every motorist is familiar with the evils of excess carbon. But not everyone knows that carbon can be checked in advance by the selection of an "extra dry" gasoline and a "golden clear" motor oil to use with it.

Both the character and the condition of the crankcase oil influence the amount of carbon deposited. If the fresh oil put into a car already contains excess natural carbon, an excess deposit of carbon in the motor surely will result. If a "wet" gasoline, containing greasy particles is used, the motor oil will be diluted quickly, and carbonization will take place freely.

The secret of checking carbon, therefore, does not lie wholly in the use of an "extra-dry" gasoline or of a "golden clear" motor oil but in the combination of both. Then, each will supplement the virtues of the other to give a new sensation of power . . . a new thrill to driving . . . a new freedom from carbon and its attending evils.

The Anti-Carbon Pair

400 "Extra Dry" Shell Gasoline and Golden Clear Shell Motor Oil are the "anti-carbon pair" . . . scientifically refined to go and work together. 400 "Extra Dry" Shell Gasoline burns completely because it vaporizes completely . . . leaving no greasy residue to injure the crankcase oil. Golden Clear Shell Motor Oil contains the lowest possible amount of carbon, and when used with 400 "Extra Dry" Shell Gasoline deposits less carbon than here before had been thought possible.

Why take chances with your car? Why run the risk of trouble, damage, repair bills and untimely depreciation . . . when 400 "Extra Dry" Shell Gasoline and Golden Clear Shell Motor Oil are so conveniently available at Shell Yellow-Red Service Stations, and cost no more than the ordinary kind?
